

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a seal for a laparoscopic port comprising multiple jaws mounted on a base, a follower member being attached to each jaw and each follower member being received in one of the plurality of guides located in the base. Each jaw further comprising a radially outwardly extending portion that engages the lip of a diaphragm such that when the actuator is rotated, the jaws move along the guides and force the diaphragm's aperture to open when the jaws move to an open position, in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
